Air view on new built water treatment plant Helmsdorf

- The Saxonian State Ministry of Economic (Germany) supports the co-operation between companies of Saxony and the CEEC countries. The Republic of Bulgaria wants to introduce European standards of environmental conservation and the Saxonian assessment procedures and is interested in the usage of experiences, in particular in those made during the German re-unification.

## Main tasks:

- Investigation of administrative and technical programmes of emphasis in environmental conservation.
- Training programme for the technology, organisation, administration, legal basis, financing, Monitoring, water supply, sewage treatment and treatment of dangerous waste from the past.
- Identification of problems arising during the restructuring of state facilities into private responsibility.
