**Objective:** The overall goal of the project is to develop environmentally and financially sustainable solid waste management in Bosnia and Herzegovina.

**Location:** Bosnia and Herzegovina

**Client:** European Commission

**Beneficiary:** Bosnia and Herzegovina

**Duration:** 2003 - 2005

**Budget:** 1.753.000 €

### Initial situation:

The project purpose is to support the implementation of the Solid Waste Management Strategy through waste management planning at selected sites and through key policy instruments to improve the legal and business environment in the waste management sub-sector. The project includes the development of waste management plans and conceptual design for three Waste Management Centres ready for submission for financial support to the donor community.

### Scope of Services:

- Cadastre and Database of waste disposal sites in BiH
- Development of waste management plans
- Conceptual Design for Pilot Projects (Regional Waste Management Centres)
- Assistance in the preparation of key draft secondary legislation
- Special economic and policy studies
- Capacity building and institutional strengthening
- Training sessions
- Awareness raising activities
- Development of public private partnerships (PPP)
