Project target: Support of environmental authorities and companies of the Republic of Lithuania in the development of an efficient environmental management in the areas of prevention of water pollution and waste water treatment.

Location: Chemnitz,
Vilnius

Client: Carl Duisberg
Gesellschaft e.V.

Beneficiary: Ministry of the
Environment of
Lithuania

Time period: 1999

Budget: 20,000 EURO

Initial situation:

- The Saxonian State Ministry of Economics (Germany) supports the co-operation between companies of Saxonia and the CEEC countries. The Republic of Lithuania wants to introduce European standards for environmental conservation and is interested in using experiences, in particular those made during the German re-unification.

Main tasks:

- Investigation of administrative and technical programmes with emphasis in environmental conservation.
- Training programme in technology, organisation, administration, legal basis, and financing of water supply, sewage treatment and treatment of dangerous waste from the past.
- Identification of problems arising during the restructuring of state facilities into private enterprises.
