Objective: Waste Management for demolition of industrial plants

Location: Berlin,
Chaussee street
37-42a

Client: TLG Immobilien
GmbH

Year: 2007

Budget: 16.000 €

Initial Situation:

The object is a former location of nationally-owned enterprise Robotron Secura with an area of approx. 2.3 ha. In the course of manufacturing processes the parts of the building have been polluted with PCB (e.g. bricks, mortar, renders, electrical insulations), PAH and petroleum-derived hydrocarbon.

Waste management measures have the objective to operate the mining waste with regard to separate the contaminated and uncontaminated building structure.

Services Provided:

- Project management acc. to the legal frameworks
- Site Supervision
- Operation of disposal routes
- Preparation of demolition measures
- Occupational safety concept
