**Project objective:** Remediation of former engineering, electroplating and chemical industry sites

**Location:** Berlin, Branden-  
burg

**Auftraggeber:** BvS / Gesa

**Jahr:** 1999 – 2007

**Budget:** approx. 500.000 €

**Initial Situation:**

In Berlin and Brandenburg there are a lot of former manufacturing plants privatised after the reunification. With the German Environmental Law of 29.06.1990 the remedial services for hazard investigation and prevention have been in great demand.

The sites exhibit partially serious contaminations of soil and groundwater with BTEX-Aroma, lightly volatile organic compounds and heavy metals, which were caused by accidents and leakages.

## Services Provided:

### 1. Organisation and Coordination

- Preparation of progress reports for the determination of further process steps
- Project Coordination with county council, consultant and authority

### 2. Information

- Project development Information to the project group

### 3. Documentation

- Project Documentation
- Preparation of quarter and final reports
