Objective: Demolition and sanitation of the ironworks Zwickau

Location: Germany – Zwickau

Client: Construction Services
Dr. Kuehn

Beneficiary: Construction Services
Dr. Kuehn

Year: 2005

Budget: 35.000 €

Initial situation:

The former ironworks Zwickau should be completely demolished and rebuilt. For this an appropriate demolition concept for all building parts was developed, presented were also the disposal routes. Before the demolition works should start it was necessary to evaluate the existing potential contaminants. The accompanying declaration was done during the demolition.

Services provided:

- Sampling and disposal concept
- Sampling
- Declaration of building rubble
- Declaration of old timber
- Declaration of roofing
- Declaration of household and special waste
- Declaration of industrial chimney
- Declaration of slags
- Analysis of potentially contaminated areas
