Internet: www.cue-chemnitz.de

Objective:

For realisation of the environmental impact assessment (EIA) by the authority the contractor had to supply the documents including the specification of the mandatory tasks for EIA, them harmful impacts on the environment and recommendation measures. WISMUT GmbH was obliged for the EIA. They ordered C&E for preparation of EIA study for the clearing of forest with the project Abbauprojektes Lokhalde“.

Location: Seelingstädt
Client: Wismut GmbH
Beneficiary: Wismut GmbH
Year: 2003
Budget: 30.000 €

Initial situation:

For the dry in situ closure of the industrial settlements pond of WISMUT GmbH at Seelingstädt it was planned the application of dump material extracted from the closely situated overburden dump, so-called Lokhalde. For the material extraction it was to clear the area of 28 ha of forest at the Lokhalde. The clearing procedure in such a scale should be carried out according to the EIA Law, Annex 1, No. 17.2.1. C&E was ordered for preparation of environmental impact study for implementation of EIA procedure.

Services provided:

- Implementation of scooping hearings
- Project description
- Description of measures taken to prevent/adjust the negative impacts and compensation measures
- Preparation of expertise for water balance, dust expansion, noise emission, flora and fauna
