**Objective:** Mapping of forest habitat types and planning of measures for the development of FFH management plans in the Bockau forest.

**Location:** Saxony

**Client:** State Environmental Office Plauen, Office for Ecological Studies

**Beneficiary:** State Environmental Office Plauen Plauen, LfP

**Year:** 2004

## Initial situation:

Within the development of the FFH management plans for the Bockau and Zscho-pau forests the vegetation and forest mapping have been carried out. The measures also included the mapping of forest habitat types under consideration of local soil forms as a basis for planning of measures for the FFH management planes. The visualisation of result was based on a GIS.

## Services provided:

- Mapping of the forest habitat types
- Consideration of local soil forms
- Evaluation of mapping and derivation of action plans for FFH management plans
- Visualisation of results
