**Project objective:** Urban development by control and using of post-mining results as well as by revaluation of the post-mining landscape

**Location:** Oelsnitz / ore mountains

**Client:** Municipality  
Oelsnitz/  
EU

**Beneficiary:** Stadtverwaltung  
Oelsnitz

**Period:** 2000 - 2001

**Budget:** 200.000 €

### Initial situation:

The town of Oelsnitz is marked by the deep coal mining over years. Mining damages, piles, disused industrial land and open-air spaces have to be integrated by regional planning.

### Main tasks:

- Exploration, control and supervision of pit flooding
- Exploration of the energy effectivity of the flood water
- Development approaches for the regional and urban planning
- Conflict concept, objective concept
- Using concept for industry, tourism, recovery
- Development plan, concept of the urban development
